

Christy Harris

MEDICAL CODING

GRADUATION DATE: JUNE 2011

Christy chose Antonelli College because it was a great career college with faculty and instructors that help you from the beginning of your journey to the end at graduation. She also liked that the Antonelli staff even helped her find a job. She chose her field of study because she had always been interested in the medical field and she decided that Medical Coding would be a perfect place to start.

"My proudest moments would have to be the day I was inducted into the Alpha Beta Kappa Honor Society and the day of my graduation with honors. I am also proud to have taken my college journey with my husband, Ron Harris. Thank you Antonelli! I enjoyed my experience with you all!"

Christy is currently working as a Medical Records Clerk at Forrest General Hospital. Her duties include scanning medical records into the Health Information Management system after they have been processed.
