

KRISTY N. HOLDER

MEDICAL CODING
GRADUATION DATE: JUNE 2010

Kristy Holder chose Medical Coding at Antonelli College because she was good at finding information and communicating with others. Antonelli College's commercial inspired her to better herself and she is very glad that she did. During her time at Antonelli, she was voted one of the most outstanding coders and became a member of the Antonelli Allied Health Club.

Her proudest moment was becoming the first Medical Coding student from Antonelli College to do an internship at Forrest General Hospital. That internship led to her being offered a position there.

Kristy is currently working as a Patients Account Assistant at Forrest General Hospital where she handles incoming and outgoing mail, processes daily cash receipts, processes all paper claims, prepares all scanned documents and distributes reports.

"Thanks for all the help I got from Antonelli," said Kristy. "I will never forget it."
