

# ANTONELLI COLLEGE

**Rickey Turner**  
Medical Administrative  
Assistant

A friend told me about Antonelli College after I wasn't having good luck with other colleges in the area.

While at Antonelli College, I was a member of the Medical Club and organized the first-ever Health and Wellness Fair and many other disease prevention related fundraisers. I was able to network with companies and gained skills that assist me in my position today.

I am currently employed with Atria Highland Crossing as an Engaged Life Coordinator. Being a medical administrative assistant student has allowed me to work in the field I am passionate about.

Antonelli College is a wonder beyond words. I was taught by instructors with a variety of medical and scientific backgrounds.

Antonelli College teaches you the steps to make your career dreams possible.
